INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories (publishers of the Whiteville Directory since 1959), present to subscribers and the general public, this, the 1961 edition of the Whiteville City Directory, which also includes Rural Route Residents.

Confidence in the growth of Whiteville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Whiteville to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and the Whiteville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Whiteville, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Whiteville and vicinity and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free reference, and serve as perpetual and reliable advertisements of Whiteville and vicinity.

The Whiteville Out-of-Town City Directory Library

Through the courtesy of the publishers of the Whiteville City Directory, a Directory Library is maintained in the offices of the Whiteville Merchants Association, Inc., for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

History of Whiteville, North Carolina

Whiteville, the county seat of Columbus County, is located somewhat west and north of the geographic center of the county. The courthouse is situated in the crossroads of north-south and east-west highways, forty-nine miles due west of the port city of Wilmington. It is the heart of a rich coastal farming section and is supported primarily by agriculture.

Originally called White's Crossing, the town was named for James B. White who gave the site for the courthouse, two of which have been built since the original one. Around the courthouse, streets and lots were laid out and this section is now referred to locally as Old Whiteville or Uptown Whiteville. When the railroad came through in the 1840's, some considered that it would be a nuisance, since it would be noisy and disturb their stock, consequently, it ran a mile and an eighth to the south, and the depot this distance south of the courthouse was known as Vineland. The two names continued until the name Vineland was dropped and it became a part of Whiteville. The old Vineland section of the town is now spoken of as "Downtown" in contrast to "Uptown" or Old Whiteville.

Whiteville was incorporated by the legislature in 1883. The oldest map of Whiteville on file in the courthouse is dated 1897. It shows two or three squares in either direction from the courthouse and three streets leading to the depot where a few more lots are shown. Additional plats have been filed showing subdivisions of farms lying between the two centers and establishing the cross streets which are on the present map.

The road between the courthouse and the depot was a sand road until 1912, when a sand clay surface was laid. A sidewalk was built about 1890. The town issued bonds and established a water and sewer system in 1922 and 1923. There was a paving program in 1924, another in 1938 and another in 1941.

No finer chapter in Whiteville's history has been written than that concerning its participation in World War II. In services both the home front and the military front, Whiteville Citizens did their part.

Whiteville men fought in every theatre of operations and served in every branch of the service. They ranged in rank from private to full colonel. In proportion to population, they won their share of awards for meritorious service.

On the home front, all phases of the American Red Cross's volunteer program were carried out in a distinguished manner and in the War Bond Drives, national prominence was gained by local participation.

By legislative enactment, the schools of the Whiteville district comprise a school administrative unit separate from

the county system. A new High School Building has been constructed.

In the field of religion, Whiteville is blessed with strong churches, magnificent buildings and good ministers. Methodists, Baptists and Presbyterians are the predominating denominations, although Pentecostal, Jewish Synagogue, Holiness, Catholic, and Episcopal Churches have beautiful structures and are progressing with Whiteville. In addition, there are Free Will Baptists, Christian Missionary Alliance, Church of God and Jehovah's Witnesses.

During the past ten years, Whiteville's recreational program has been formulated and now consists of a full-time director, spacious playgrounds and equipment and a well-rounded program for the youth and adults of the community. The Whiteville Country Club provides a nine-hole golf course, and there are numerous private tennis courts and swimming pools.

Columbus County Hospital is located in Whiteville and has grown from a small institution in a home to its present capacity of 125 beds. It has ample equipment and competent, well-trained physicians for proper medical care.

Whiteville has a well-appointed and well-equipped city library with a wide circulation. The Whiteville Post Office, located in a beautiful building on Madison Street, has a first class rating.

The National Guard Armory is amply built to provide training space for this area's national guard.

The Whiteville Tobacco Market, of world-wide fame, has steadily progressed over the years and, now averaging over 34,000,000 pounds of tobacco sold each year during the three months selling season. Nets over \$20,000,000.

Whiteville is richly endowed with industrial possibilities. It has a civic-minded citizenship who are anxious to promote the civic development of the town. It has business men with vision and energy and it has natural beauty. It has civic organizations which have proved their worth as civic enterprises.

Located as it is in the heart of a great county where virgin opportunities still abound, the future of Whiteville has possibilities yet unimagined. To the industrialists, particularly those whose industries are based in farm or forest products, who are looking for new territory where labor and raw materials are available on a year-round basis at a reasonable cost, Whiteville offers a golden opportunity. To small business men, who are looking for a congenial atmosphere in which to live and work and educate their children, they will find in Whiteville the fulfillment of their dreams.

Forgers
KNOW YOUR
ENDORSERS!**

The Government Never Redeems Counterfeit Money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	Counterfeit —Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine —Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	Counterfeit —Saw-tooth points around rim are usually uneven, broken off.
	Genuine —Saw-tooth points around rim are even and sharp.
SERIAL NUMBER	Counterfeit —Poorly printed, badly spaced, uneven in appearance.
	Genuine —Figures firmly and evenly printed, well spaced.
PAPER	Counterfeit —Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine —Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will not prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY," which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100 from the Superintendent of Documents, Government Printing Office, Washington, D. C.

- I. Serve the public with honest values.
- II. Tell the truth about what is offered.
- III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.
- IV. Tell customers what they want to know - what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.
- V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.
- VI. Be sure that the normal use of merchandise or services offered will not be hazardous to public health or life.
- VII. Reveal material facts, the deceptive concealment of which might cause consumers to be misled.
- VIII. Advertise and sell merchandise or service on its merit and refrain from attacking your competitors or reflecting unfairly upon their products, services, or methods of doing business.
- IX. If testimonials are used, use only those of competent witnesses who are sincere and honest in what they say about what you sell.
- X. Avoid all tricky devices and schemes such as deceitful trade-in allowances, fictitious list prices, false and exaggerated comparative prices, bait advertising, misleading free offers, fake sales and similar practices which prey upon human ignorance and gullibility.

Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

The power of light to sell goods has been demonstrated time and time again in stores throughout the country. People will buy what they can see well . . . they will buy more freely in the atmosphere of a modernly lighted store . . . they will be more satisfied with their purchases. Light also can be used to call customers attention to certain goods through floodlighting or spotlighting, and its applications to the display of merchandise are almost endless.

The proper use of light is a powerful sales tool . . . a sales tool that you can use with profit in your business.

BETTER BUSINESS BUREAUS, INC.**

I. Serve the public with honest values.

II. Tell the truth about what is offered.

III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.

IV. Tell customers what they want to know - what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.

V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.

Out of Sight - Out of Mind

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

Use Our Library of

**OUT-OF-TOWN
CITY DIRECTORIES**

A complete library of out - of - town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in **heavy type** denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

Directory of Household,ers, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide

1961

Copyright, 1961, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol @ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

VITAL INFORMATION AT YOUR FINGER-TIPS

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communications, etc. Also, Directory usage is **up** among regular subscribers.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

The Government Never Redeems Counterfeit Money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	Counterfeit —Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background. Genuine —Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	Counterfeit —Saw-tooth points around rim are usually uneven, broken off. Genuine —Saw-tooth points around rim are even and sharp.
SERIAL NUMBER	Counterfeit —Poorly printed, badly spaced, uneven in appearance. Genuine —Figures firmly and evenly printed, well spaced.
PAPER	Counterfeit —Generally has no silk threads, but these may be imitated by very small red and blue ink lines. Genuine —Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will not prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**
